

Installing Visual Anthology is simple process that may be done by you using this document. Before we begin there are few things to consider before you upgrade.

Getting the installation password

1. Please contact our offices for the password associated with your version.

Before you begin your installation

- 1. You should close all other programs on the computer (server) you are installing to.
- 2. We also recommend that prior to running the installation you reboot the computer (turn off for about 30 seconds and turn back on). You should be sure you know any passwords necessary to log back in before you do.

Running the install program

- 1. Locate the Installation file on the CD you received from Anthology. The file will name Anthology[version number] for example "Anthology7.4.164.0.exe"
- 2. Double click the file to start the process
 - a. You may see this screen Choose Run

b. Follow the on screen prompts shown below:

1. 2. 3.
