

# Setting the GS220 to continuous scan

CUSTOMER DOCUMENT  
REVISED 11 JUN 2018

To set you scanner in continuous mode you'll need you owner's manual. This contains the barcodes you'll need to complete this operation

1. Go to page 23 of the user manual.
2. Scan the "setup" barcode.
3. Next scan the "scanning mode" barcode
4. Next scan the "continue" barcode (03)
5. Next go to page 25 and scan the "end" barcode

| Multiple-scan setting   |                    |              | Single-scan setting  |
|---|--------------------|--------------|--|
| Option barcode  | Option             | Alpha. value |  |
| Scanning mode <sup>Note 1</sup><br><br><b>0401</b> | Good-read off      | 00           | <br>%0401D00%   |
|   | Momentary          | 01*          | <br>%0401D01% * |
|   | Alternate continue | 02           | <br>%0401D02%   |
|   | Continue           | 03           | <br>%0401D03%   |
|   | Timeout off        | 04           | <br>%0401D04%   |
|   | Auto-detection     | 03           | <br>%0401D05%   |
