

Creating a simple mailing list

1. With Anthology open go to Master Files | Customers
2. The mailing list will choose all your customers – if you need to filter the list you'll need to use Actions | Construct a query to do so.

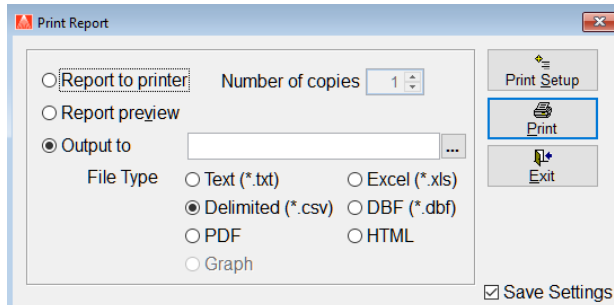

3. Choose F11 Print

4. If you are creating for the first time:
 1. Select the fields from the left so that they appear in the right.
 2. Modify the field lengths if needed by select in the right , editing the width, and choosing Enter to save the changes.
 3. When you're ready choose F11 Print.
5. If you are using a save report:
 1. Choose F6 Load
 2. Choose the report format to use and choose F12 Select at the bottom of the screen.

3. You are taken back to the main screen
4. Choose the F11 Print button at the bottom of that screen

5. In the output to field enter the name of the CSV file to create.
